

## United Pet Care Partners with isolved to Offer Pet Care Offering

November 7, 2023 — United Pet Care (UPC), the country’s premier pet healthcare membership benefit, and [isolved](#), Where People Heroes Grow™, have announced a partnership to provide a seamless integration for isolved clients – allowing them access to UPC’s flexible and affordable pet healthcare savings plan.

UPC will now be offered in the [isolved Marketplace](#), which helps employers enhance HCM solutions through add-on modules. The isolved Marketplace provides an extensive ecosystem of apps and integrations aligned with the business needs of isolved customers to significantly improve their agility in adapting to ever-changing market dynamics as they scale their efforts to meet the growing demands of their workforce and businesses. UPC will also have a full integration with isolved People Cloud to support clients’ enrollment and ongoing benefit administration needs.

Aaron Oaks, Chief Executive Officer of UPC, said, “We have partnered with isolved to create seamless enrollment and administration of UPC for isolved clients. isolved shares UPC’s relentless focus on the customer experience and has created a platform to simplify a typically complex benefit enrollment and management process. We are beyond excited for this partnership to offer our no-restrictions, no-exclusions pet healthcare program to isolved network of millions of pet parents.”

People now view their pets as part of the family – UPC is the benefit employers of choice nationwide choose to protect their employees’ “fur babies.” UPC is an alternative to pet insurance which gives its members 20%-50% instant savings at their selected in-network UPC veterinarian, a free 24/7 pet helpline, savings on human equivalent pet prescriptions, wellness kits, supplements, and much more.

“For many, our pets are truly like family. As millennials and Gen Z continue to enter the workforce, pet care benefits seem to be desired,” says isolved’s Chief Product Manager, Pragya Malhotra. “In fact, our research shows that [21 percent](#) of employees would like pet benefits to be included in their benefits offering – while only [15 percent](#) say it already is. We’re thrilled for the UPC integration within the isolved Marketplace and the ease to cover our four-legged friends.”

### About United Pet Care

United Pet Care is America’s premier pet healthcare membership benefit offered by employers nationwide. Through our network of 1,500+ vets, we provide a value-conscious alternative to pet insurance for our members. UPC gives members the ability to save instantly on every visit to the vet regardless of a pet’s age, breed or pre-existing conditions-without the hassle of claim forms, denials, or policy restrictions.
